

## LPKF NEWSLETTER 02/05

Ladies and Gentlemen,

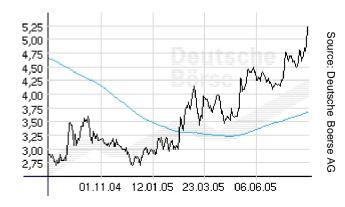

The first half of 2005 has not only completely fulfilled our expectations it has even exceeded them in some cases. LPKF Laser & Electronics AG was able to boost its turnover by 41.5% year-on-year to Euro 15.787 million. We have also been so successful in controlling costs that they have risen less than turnover. This satisfactory development is reflected in the increase in EBIT margin in the first half from 2.0% to 17.5%.

Of particular interest is again the excellent business performance of our Cutting and Drilling Laser Systems. The MicroCut, a high-end development in the StencilLaser segment, has made a major contribution to the good sales figures in recent months. The inspection systems of our subsidiary in Suhl are also continuing to gain customers and generate growth thanks to their unique 3D measuring technology. We can also report that our Laser Plastic Welding segment has gone into profit for the first time, and ahead of the original turn-around date set for the end of the year.

The Rapid PCB Prototyping segment shows potential for better results. The sales in the first months of the financial year were slightly depressed by a delay in the delivery of a new Protomat model. However, orders received indicate that this shortfall can be made good in the next months.

The development of Asia into a global production centre for electronics manufacturers continues. This is why Asia, and in particular China, Japan, Korea and Taiwan, remain LPKF's fastest growing markets with a share of turnover of 51.0% (previous year: 33.8%). LPKF AG has continuously expanded its business in Asia and will strengthen its presence further with the opening of new headquarters in Hong Kong. The new company will operate under the name LPKF Laser & Electronics (Asia) Ltd. Despite our major engagement in the Far East, we are not neglecting the European and American markets.

Share price (Xetra): 12 months

Orders in hand at LPKF Laser & Electronics AG at 30 June 2005 totalled  $T \in 3,667$ . This is an increase of 49.6% year-on-year ( $T \in 2,452$ ) and justifies an optimistic outlook. The Board of Managing Directors expects the turnover target of  $\in$  30 million to be achieved at the end of the year. According to current estimates, the EBIT margin will be around 14%.

Dear shareholders, LPKF's share price also reflects the continuing improvement in results in recent months. Rest assured that we will continue to work hard to boost the value of your company even further.

Yours faithfully

Bernd Hackmann

Bernd Lange

### **Shortened Annex**

The 30 June 2005 interim report has been prepared in accordance with IFRS. It reflects the interpretations of the International Financial Interpretations Committee (IFRIC). All past figures have been determined using the same principles.

The interim financial statements follow the same accounting, valuation and calculation methods as the last annual financial statements.

Estimates of amounts reported in earlier interim reporting periods of the current financial year, the last annual financial statements, or in previous financial years remain unchanged in this interim report.

According to the resolution of the shareholders` general meeting on 1 June 2005 a dividend of K€ 425 was paid.

With effect from February 1st, 2005, the group has sold the stencil production in the USA by disposing of the assets of LPKF Services, Inc. (formerly: A-Laser, Inc.).

R&D expenses in the reporting period were K $\in$  1,597 (previous year K $\in$  1,508).

No changes have arisen since the last balance sheet date with respect to contingent liabilities and contingent assets.
