

## **A Truly Glistening Performance**

### **Einhell presents new Power X-Change cordless polisher and sander**

*Landau a. d. Isar, 9/11/2019 – From fall 2019, Einhell will be the first manufacturer in the middle price segment to offer a cordless polisher and sander that can be used both for polishing jobs on flat surfaces and for sanding on wood, metal and plastic. It's also a member of the innovative Power X-Change battery platform, which already includes more than 100 power and garden tools and will be expanded to at least 130 devices by the end of 2019.*

### **Bring out the shine in your car**

Car owners who like their paintwork to look at its best will find the polisher a trusty and reliable assistant that takes all the fatigue and sweat out of the job. Operating at a speed of up to 3,000 rpm, the Power X-Change CE-CP 18/180 Li E cordless polisher and sander from Einhell quite simply brings the luster back to dull paintwork on vehicles, motorbikes and boats. Even small scratches are no longer a problem with the right polish. One of the key benefits is its independence from the power supply – which means no interfering cables, giving the user unlimited freedom of movement. The Power X-Change universal battery can also be used in any device of this platform.

### **The 2-in-1 product makes it possible**

As well as the polishing function, wood, metal and plastic surfaces can also be sanded. The cordless polisher and sander is fitted with a long-life brushless electric motor that speeds up jobs with the aid of the 180 millimeter wide polishing disk. The spindle lock enables users to attach the polishing disk in a matter of moments, while the hook-and-loop micro fastener allows the attachments to be changed quickly and easily. The user can set the required rotational speed to suit the application by pressing a button on the LCD display. The ergonomic handle with soft grip and the slimline design help to control handling and take the fatigue out of the job.

### **Everything for the car**

In addition to paintwork care, Einhell also offers other useful car accessories. Tire changes can be performed quickly and easily using an impact driver, compressor and jack, for instance. For cleaning, Einhell offers both a high-pressure cleaner and a practical vacuum in a range of power classes. Einhell has also developed some new cordless alternatives in this product range, such as the TE-VC 18 Li cordless handheld vacuum cleaner
