

## **Compact assistance for greener gardens**

### **New pressure sprayers in the Power X-Change cordless range from Einhell**

*Landau an der Isar, 13.02.2020 – In the spring of 2020, Einhell Germany AG will be widening its gardening segment and adding two new Power X-Change cordless pressure sprayers for plant care and plant protection in the garden. The models are offered with a 3.5 liter tank and a 7.5 liter tank. Thanks to the automatic pump, it is no longer necessary to manually build up pressure.*

### **Effortless pumping with Power X-Change**

To keep their flower beds and shrubs healthy, vigorous and well protected against pests, many hobby gardeners will be relying on fertilizers and plant protection products again come springtime. Pressure sprayers make the work of looking after your plants in the garden a lot easier. They can be used for targeted and uniform application of pesticides, fertilizers and weed killers. A particularly useful aspect here is that these systems are particularly frugal and efficient, as the amount of liquid used is carefully controlled. As part of the Power X-Change battery system, the new cordless pressure sprayers from Einhell use an automatic pump powered by a Power X-Change battery pack – which means no more manual pumping! With these products, the plant care products are conveniently dosed and distributed.

### **Get your garden blooming with our pressure sprayers**

The larger model GE-WS 18/75 Li is equipped with a 7.5 liter tank, while the smaller model GE-WS 18/35 Li has a 3.5 liter tank. With the aid of a scale on the transparent container, the relevant fill level can be read off at a glance.

Up to 0.5 liters per minute is distributed with a maximum pressure of 2.5 bar via the individually adjustable brass nozzle. Thanks to the telescopic stainless steel spray lance with lockable operating button, it is incredibly easy to work with the unit – saving your back in the process and minimizing the effort required. The cushioned carrying strap also adds to the comfort of carrying the unit. The rechargeable battery is protected with a cover against splash water. The large metal brackets on the tank are designed for easy opening and closing.

### **Freedom of cordless operation for all projects**

The Power X-Change platform currently has over 130 cordless tools for the home and garden and is constantly being refined and expanded. Depending on the requirements,
