

## Compact Einhell Universal Cordless Saw really delivers in the workshop and in the garden

*Landau an der Isar, July 22, 2021 – Einhell Germany AG has added the compact 18 V TE-AP 18/28 Li BL Universal Cordless Saw to its existing tool range. As a member of the Power X-Change cordless family, its multifunctional rechargeable battery is compatible with all the other devices in the platform – a platform that already includes more than 200 tools for the home and garden. Universal saws are versatile helpers that are perfectly suited to cutting wood, metal pipes and plastics.*

### Reliable helper with an ergonomic design

Universal saws are used particularly on construction sites, in the workshop, and in the garden. The powerful tool from the Power X-Change family of cordless tools has revealed itself to be an incredibly practical helper for all kinds of sawing tasks – for example in order to shorten wooden beams or cut metal or plastic pipes. In contrast to conventional saws, the cordless design doesn't require any muscle power, making an otherwise strenuous task a whole lot easier.

With a cutting depth of 200 mm for wood, 20 mm for plastic and 12 mm for metal, the new Power X-Change TE-AP 18/28 Li BL Universal Cordless Saw impresses with a clean cut and ergonomic handling thanks to the soft-grip handles. With no interfering cable to get in the way and an 18 V Power X-Change battery pack, the universal saw is ready to use straight away. The brushless motor delivers more power and runs for longer than a conventional carbon brush motor. The rotating main handle offers maximum flexibility for a range of different applications. The adjustable cutting base plate ensures optimum utilization of the saw blade. Thanks to the anti-vibration function, the unit makes for easy, non-tiring work with low vibrations. It is supplied with a high-quality wood saw blade, which can be changed quickly and easily – with no need for tools.
