

Special Mention for the world's most UV-resistant GRP face sheet

LAMILUX SUNSATIION® wins German Design Award

The innovative gelcoat technology LAMILUX SUNSATIION® has convinced a renowned jury for the third time: The German Innovation Award was followed by the AVK Innovation Award and now the German Design Award also crowns the world's most UV-resistant GRP face sheet with the "Special Mention" in the category "Excellent Product Design".

Europe's leading manufacturer of fibre-reinforced composites, LAMILUX Composites, presents LAMILUX SUNSATIION®, the world's most UV-resistant GRP face sheet and one of the most revolutionary developments in the world of glass fibre-reinforced plastics.

Remarkable design

Extreme colour and gloss resistance and no colour difference after removal of decals from surfaces: LAMILUX SUNSATIION® sets a new benchmark in the quality standard of glass fibre-reinforced plastics. In artificial weathering tests, such as according DIN EN ISO 4892–2, LAMILUX SUNSATIION® demonstrates absolute resistance. Even after 15 to 20 years of real weathering, LAMILUX SUNSATIION® retains its rich colours and maximum gloss. The results of the tests confirm the revolutionary development for GRP exterior applications. The ultimate plus: LAMILUX SUNSATIION® significantly reduces the care requirements of exterior applications. Surfaces that do not dull and do not lose their gloss do not need to be waxed for preventive protection or subsequent repair. In figures, this means: 90 percent less effort and expense for waxing, thanks to the use of LAMILUX SUNSATIION®.

About the German Design Award

For 10 years now, the German Design Award has been honouring groundbreaking products and projects that are pioneering in the German and international design landscape. The top-class international jury honours their manufacturers and designers with the award. The German Design Award is one of the most renowned design awards worldwide and enjoys an illustrious reputation far beyond professional circles. Anyone who triumphs in the face of high-calibre competition has successfully shown that they are among the best.
