

PRESS RELEASE

Kirchheim, 30th of, 2024

Premiere in Turkey - hubergroup Chemicals presents its wide-range of chemical raw materials for inks and coatings at Paintistanbul & Turkcoat

hubergroup Chemicals, one of the world's leading manufacturers of chemicals for inks and coatings, will present its comprehensive portfolio for the first time at paintistanbul & Turkcoat from May 8 - May 10, 2024, at the Istanbul Expo Center, Turkey. A special focus of the division of the international chemical and printing ink specialist hubergroup, founded in 2020 and based in Germany, will be on the wide range of chemical raw materials for inks and coatings. All interested parties are cordially invited to visit stand D111 in Hall 1.

Paintistanbul & Turkcoat is one of the largest international platforms for the paint, ink and coating industry. Every two years the exhibition brings together leading companies from all over the world; it is a pioneer in establishing new business agreements and offers participating companies the opportunity to meet with local and foreign visitors. This year, hubergroup Chemicals is participating in Paintistanbul & Turkcoat for the first time, presenting its state-of-the-art, comprehensive portfolio of raw materials for inks and coatings. At the same time, hubergroup Chemicals is using Paintistanbul & Turkcoat to connect with all interested parties in the region.

"We are looking forward to our premiere at Paintistanbul to build new bridges to all interested parties in Europe, Asia and Africa and to present our comprehensive portfolio of chemical raw materials," says Burak Sezerel Sales and Marketing Director of Turkiye, hubergroup Chemicals. "As a young division of the world-renowned hubergroup, we combine experience and innovative spirit, which we are now presenting for the first time in Turkey."

"Sustainability, efficiency and effectiveness are at the forefront of our broad hubergroup Chemicals portfolio, with the great advantage that we produce all specialty chemicals ourselves and tailor them to the needs of our clients," says Burak Sezerel Sales and Marketing Director of Turkiye, hubergroup Chemicals.

hubergroup Chemicals is one of the world's largest manufacturers of specialty chemicals such as resins, laminating adhesives, additives and dyes with a cumulative production capacity of almost 300 kilotons. In its own production facilities hubergroup Chemicals carries out numerous reaction mechanisms in more than 100 reactors. For example, addition, condensation, and the azo coupling reaction in pigment synthesis are among the group's specialties.

The company was founded in 2020 and is a division of the international chemical and printing ink specialist hubergroup, which can look back on a history of over 255 years. In recent years, the division has developed into a leading global expert in the field of raw material production. It maintains its own production plants and research departments worldwide, which work closely together on the latest innovations - with more than 20 new products every year.

Thanks to the extensive production capacities, hubergroup Chemicals has acquired many international and regional clients from the chemicals, coatings and printing ink industries in the last two years.

For its premiere at Paintistanbul & Turkcoat, hubergroup Chemicals will be on site with numerous experts who will be able to provide visitors with competent information about the portfolio.

You will find hubergroup Chemicals at Paintistanbul & Turkcoat at stand D111, in Hall 1.
