

Latest addition to the Einhell lawn mower range: cordless lawn care with and without battery operation

Landau an der Isar, March 3, 2021 – A lush and well cared-for lawn is the pride and joy of every hobby gardener. The grass surface itself is the at heart of this, and this is why looking after it takes up the most time. In order to keep efforts as straightforward as possible, Einhell Germany AG offers a comprehensive range of garden care tools. The latest addition to the range is the Power X-Change Rasarro 36/42 Cordless Lawn Mower, which is perfect for hobby gardeners who want to keep lawns of up to 550 square meters in shape. Einhell now also offers two unpowered hand mowers for noise-sensitive gardens in its range. These lightweight gardening assistants impress with quiet and environmentally-friendly operation.

Battery-powered lawn care

Regular grass cutting promotes even growth of the turf and leaves the lawn looking green, dense, and lush. We recommend cutting once or twice a week – also because this will keep weeds and moss in check, which would otherwise spread freely in the garden. With a cutting width of 42 cm, the new brushless 36 V Power X-Change Rasarro 36/42 Cordless Lawn Mower is perfect for this lawncare work. Low-noise and emissions-free, it can handle lawn sizes of up to 550 square meters. With two battery slots and the two 4.0 Ah Power X-Change battery packs that come with the unit, it is immediately ready for action. The required cutting height can be centrally adjusted in six steps from 25-75 mm. The fill level of the 50 liter grass collecting basket can also be checked via a display at any time. To ensure that users don't strain their back in any way while using the mower, the sturdy long aluminum handle can be individually adjusted both in terms of height and reach. It can also be folded for space-saving storage in the garage or in the tool shed. The integrated grass comb allows the grass to be cut right up to the edge. On longer jobs, the ergonomically formed handle area will prevent signs of fatigue.

New battery power in the gardening range: the Power X-Change Rasarro 36/42 Cordless Lawn Mower from Einhell

Particularly quiet and ready for use at any time

The new Einhell hand lawn mowers GC-HM 400 and GC-HM 300 offer a cutting width of 40 and 30 cm respectively, making them ideal for small and medium-sized gardens in

PRESS RELEASE

residential areas or allotments. They are maintenance-free, easy to clean and easy to store thanks to the park position. Quiet, lightweight and without any electric power at all, these mowers use a mowing spindle with ball bearings and five high-grade steel blades to cut through your garden green. Both mowers can be individual adjusted from 13 to 37 mm with the aid of the 4-stage cutting height adjustment. The long curved handle offers optimum ergonomics. The GC-HM 400 has a plastic roller with a diameter of 46 mm and a detachable 27 liter grass collecting basket, and is suitable for lawns up to 250 square meters in size. The GC-HM 300 is equipped with a 16 liter collecting basket and has a plastic roller with a diameter of 45 mm. It is recommended for lawn sizes up to 150 square meters.
