

New pumps from Einhell for smart watering in the garden

Landau an der Isar, March 9, 2021 – Collecting rainwater and using it in the garden is both good for the environment and inexpensive. Einhell Germany AG has a selection of different pumps in its range to help ensure you can make the most of rainwater. The latest additions for 2021 are two 2-in-1 combination pumps that impress with multifunctional versatility, as they can be used both as submersible pressure pumps and as rain barrel pumps. For maximum freedom, hobby gardeners can choose between a plugged-in electric model and a cordless battery-powered model. A cordless clean water pump has also been added to the Power X-Change range, impressing with a high delivery rate.

New generation of Power X-Change cordless garden pumps

For over a year, tool and garden equipment manufacturer Einhell from Lower Bavaria has been offering the Aquinna Cordless Garden Pump in its range of cordless Power X-Change tools. This new line has already met with great enthusiasm from many hobby gardeners. The range is now being expanded with the addition of two further battery-powered immersible motor pumps.

With a max. delivery pressure of 0.8 bar and a max. delivery rate of 5,000 liters per hour, the new 18 V Power X-Change GE-SP 18 Li Cordless Clean Water Pump can pump clean water up to 8 meters high. It can be used for example to pump the water out of a pool regardless of whether or not there is a power supply nearby. The pump is equipped with a long cable connection for a maximum immersion depth of 4 meters.

The 2-in-1 Power X-Change GE-PP 18 RB Li Cordless Submersible Pressure Pump and Rain Barrel Pump can be used flexibly for watering in the garden. It delivers up to 3,000 liters of water per hour both from cisterns, wells, or rainwater tanks with a high max. pressure of 2 bar. Thanks to cordless operation, hobby gardeners can move freely and use the pump anywhere they like in the garden. Either as a submersible pressure pump in water depths of up to 4 meters, or as a rain barrel pump. The practical telescopic connection pipe and the flexible gooseneck allow a garden hose to be connected very easily.

The new Power X-Change GE-SP 18 Li Cordless Clean Water Pump delivers up to 5,000 liters of water per hour.

The 2-in-1 Power X-Change GE-PP 18 RB Li Cordless Combination Pump can be used both as a submersible pressure pump or as a rain barrel

PRESS RELEASE

An easy to reach hose connection can be found on the top of the high-quality pump housing on both models. The mobile battery box is splash-proof and can be securely fastened with a stainless steel bracket, for example to a rain tank. When the pumps are not in use, the battery box can be safely stowed away using the practical wall bracket. The 5 m long cable is stored using an integrated holder on the battery box.

High quality and long service life

Another innovation in the water pumps range of Einhell is the new electric cable operated 2-in-1 GE-PP 5555 RB-A Combination Pump. It can be used both as a submersible pressure pump down to water depths of 7 m or as a rain barrel pump, and is thus the ideal watering solution in the garden. With 550 W of power, the pump can deliver a maximum of 5,500 liters of water per hour through a multi-stage pumping system up to a maximum height of 20 m. The pump comes as standard with a telescopic connection pipe and a movable gooseneck with a practical hose connection.

The innovative automatic function with integrated dry-running protection switches the pump on and also off as soon as water stops flowing. A high-quality mechanical seal guarantees a long service life. On the upper side of the housing there is a carry handle for easy transportation and a 33 mm hose connection (G1 AG).
