F24 AG presents app for mobile alarm management

Munich (ots) -

The F24 Alert! app is the first milestone in F24 AG's innovation drive for 2013

F24 AG announces the release of F24 Alert! a native app for iOS, available for FACT24 users as from 1st September, 2013. The app can be downloaded free from the App Store. The F24 Alert! app enables users to undertake professional alarm management when on the move. Alarms can be activated via the app using a smartphone or tablet device, allowing FACT24 users to respond rapidly to incidents and emergencies even when traveling.

The F24 Alert! app focuses on key alarm management system functions to enable rapid alarm activation, flexible adaptation of alarm scenarios and the Alarm Monitor tracks the progress of all activated alarms in real time.

Rapid and simple operation was the primary focus for consideration in the design of the app, providing a clear, easy-to-follow layout. The app will be available in German and English.

The F24 Alert! app will also be available for Android from October 1, 2013. It can be downloaded free from Google Play.

Jochen Schütte, Corporate IT and Product Management Officer at F24 AG, says: "By releasing our F24 Alert! app we have responded closely to the requirements of our customers, who need the ability to act in a flexible yet fast manner. Today many processes are managed on the move. Our app shows we are at the forefront of trends. Further exciting functions are set to follow in 2014."

F24 is the Software-as-a-service provider for highly secure alerting and crisis management solutions and a worldwide leader in its field. Over 500 companies in 70 countries use FACT24: Airbus, Cepsa, Daimler, EADS, ExxonMobil, Jumeirah, Lufthansa, Repsol, SAP, Shell, Total, etc.

When an incident occurs, FACT24 is the key notification, alerting and crisis management tool. Management and emergency team members are alerted, decision-makers are called together in telephone conferences and information hotlines are established. The FACT24 Case Manager serves as centre of all real-time communication and data exchange with all key stakeholders.
