Skulleton Watches at THOMAS SABO: The international premium brand introduces automatic watches (FOTO)

Lauf/Pegnitz (ots) -

THOMAS SABO, for the first time, presents a new collection of automatic watches, expressively designed in an iconic fashion, true to the brand's history of design. The five unisex models with the distinctive name 'Rebel Automatic Skulleton' - a notable play on words merging the skeleton watch design, with the motif of a skull - will be available exclusively from THOMAS SABO stores and the online e-Shop from the 1st October 2018.

The face, casing and bracelet of the new Rebel Automatic Skulleton have a distinctive appearance and are inspired by the unmistakable DNA of the THOMAS SABO Rebel at Heart men's jewellery line. Eight silver-coloured skull motifs integrated into the stainless steel bezel give the watches their rebel edge. The transparent dial is also the signature design element, as it provides a fascinating view of the skeletonised Miyota automatic movement. A further highlight is the elaborately set glass, set in the back of the case, in the form of the iconic THOMAS SABO skull design - a unique feature that makes the movement visible from both sides.

The series comprises five different models in three colourways; black, silver and gold, with either stainless steel or leather bracelets.
