### Consolidated Report on the Payments Made to Governments

#### Section 267c of the Austrian Commercial Code

Section 267c of the Austrian Commercial Code (UGB) requires that large undertakings and public interest entities that are active in the extractive industry or logging of primary forests prepare the following consolidated report on payments to governments. This section implements Chapter 10 of EU Accounting Directive (2013/34/EU). The "Basis of preparation" paragraph provides information to the reader about the contents of the report. This also includes information on the type of payment for which disclosure is required and how OMV has implemented the regulations in the preparation of the report.

#### Basis of preparation

##### Reporting entities

Under the requirements of the regulation, OMV Aktiengesellschaft is required to prepare a consolidated report covering payments made to governments for each financial year in relation to extractive activities by itself and any subsidiary undertakings included in the consolidated Group financial statements.

##### Activities within the scope of the report

Payments made by the OMV Group (hereafter OMV) to governments that arose from exploration, prospection, discovery, development and extraction of minerals, oils and natural gas deposits or other materials within extractive activities are presented in this report.

##### Government

A "government" is defined as any national, regional or local authority of a country and includes a department agency or entity undertaking that is controlled by the government authority and includes national oil companies.

In cases where a state-owned entity engages in activities outside of its designated home jurisdiction, then it is not deemed to be a reportable governmental body for these purposes and thus payments made to such an entity in these circumstances are not reportable.

##### Project Definition

The regulation also requires payments to be reported on a "project" basis as well as on a government and governmental body basis. A project is defined as the operational activities that are governed by a single contract, license, lease, concession or similar legal agreement and form the basis for payment liabilities to the government. Where these agreements as per the aforementioned definition are substantially interconnected, these agreements are treated for the purpose of these regulations as a single project.

"Substantially interconnected" is defined as a set of operationally and geographically integrated contracts, licenses, leases or concessions or related agreements with substantially similar terms that are signed with a government, giving rise to payment liabilities. Such agreements can be governed by a single contract, joint venture agreement, production sharing agreement or other overarching legal agreement.

There may be instances - for example, corporate income taxes, where it is not possible to attribute the payment to a single project and therefore these payments are shown at the country level.

#### Cash and payments in kind

In accordance with the regulation, payments have to be reported on a cash basis. This means that they are reported in the period in which they are paid and not in the period in which they are accounted for on an accruals basis.

Refunds are also reported in the period in which they are received and will either be offset against payments made in the period or be shown as negative amounts in the report.

Payments in kind made to a government are converted to an equivalent cash value based on the most appropriate and relevant valuation method for each payment type. This can be at cost or market value and an explanation is provided in the report to help explain the valuation method. Where applicable, the related volumes are also included in the report.

#### Payment reporting methodology

The regulations require that payments are to be reported where they are made to governments by OMV. It is required that the report reflect the substance of each transaction and activity. Based on these requirements, OMV has considered its reporting obligation as:

- Where OMV makes a payment directly to the government, these payments will be reported in full, irrespective of whether this is made in the sole capacity of OMV or in OMV's capacity as the operator of a joint operation.

- In cases where OMV is a member of a joint operation for which the operator is a state-owned entity (i.e. a government), payments made to that state-owned entity will be disclosed where it is possible to identify the reportable payment from other cost recovery items.

- For host government production entitlements, the terms of the agreement have to be considered; for the purpose of reporting in this report, OMV will disclose host government entitlements in their entirety where it is the operator.

#### Materiality

Payments made as a single payment or a series of related payments that are below EUR 100,000 within a financial year are excluded from this report.

#### Reporting currency

Payments made in currencies other than euros are translated for the purposes of this report at the average rate of the reporting period.

#### Payment types disclosed

##### Production entitlements

Under production sharing agreements (PSAs), the host government is entitled to a share of the oil and gas produced and these entitlements are often paid in kind. The report will show both the value and volume of the government's production entitlement for the relevant period in barrels of oil equivalent (boe).

The government share of any production entitlement will also include any entitlements arising from an interest held by a state-owned entity as an investor in projects within its sovereign jurisdiction. Production entitlements arising from activities or interests outside of a state-owned entity's sovereign jurisdiction are excluded.

#### Taxes

Taxes levied on income, production or profits of companies are reported. Refunds will be netted against payments and shown accordingly. Consumption taxes, personal income taxes, sales taxes, property taxes and environmental taxes are not reported under the regulations. Although there is a tax group in place, the reported corporate income taxes for Austria relate entirely to the extractive activities in Austria of OMV's subsidiaries, with no amounts being reported relating to OMV's non-extractive activities in Austria.

## Royalties

Royalties relating to the extraction of oil, gas and minerals paid to a government are to be disclosed. Where royalties are paid in kind, the value and volume are reported.

## Dividends

In accordance with the regulations, dividends are reported when paid to a government in lieu of production entitlements or royalties. Dividends that are paid to a government as an ordinary shareholder are not reported, as long as the dividends are paid on the same terms as that of other shareholders.

For the year that ended December 31, 2018, OMV had no such reportable dividend payments to a government.

## Bonuses

Bonuses include signature, discovery and production bonuses in each case to the extent paid in relation to the relevant activities.

## Fees

These include license fees, rental fees, entry fees and all other payments that are paid in consideration for access to the area where extractive activities are performed.

The report excludes fees paid to a government that are not specifically related to extractive activities or access to extractive resources. In addition payments paid in return for services provided by a government are also excluded.

## Infrastructure improvements

The report includes payments made by OMV for infrastructural improvements, such as the building of a road or bridge that serves the community, irrespective of whether OMV pays the amounts to non-government entities. These are reported in the period during which the infrastructure is made available for use by the local community.

## Payments overview

The overview table below shows the relevant payments to governments that were made by OMV in the year that ended December 31, 2018.

Of the seven payment types that are required by the Austrian regulations to be reported upon, OMV did not pay any dividends, bonuses or infrastructure improvements that met the defined accounting directive definition and therefore these categories are not shown.

## Payments overview

In EUR 1,000	Production Entitlements	Taxes	Royalties	Fees	Total
Country	24,033	75,726		99,759	
Austria					
Kazakhstan	24,848		781	25,629	
Madagascar			414	414	
Norway	127,898		5,911	133,809	
New Zealand	27,619	33,490	471	61,580	
Pakistan	1,923	1,777	633	4,333	
Romania	178,477	162,918	19,684	361,079	
Tunisia	17,981	7,361		25,342	
United Arab Emirates		12,567	1,271,015	1,283,582	
Yemen	50,946	4,836		55,782	
Total	50,946	402,779	298,675	1,298,909	2,051,309

No payments have been reported for Libya for the year 2018 as OMV was not the operator.

On April 29, 2018, OMV signed a concession agreement for the acquisition of a 20% stake in two oil fields in Abu Dhabi from ADNOC. The concession area consists of two offshore fields under development, Umm Lulu and Satah Al Razboot (SARB), as well as two satellite fields, Bin Nasher and Al Bateel. The agreed participation fee amounted to USD 1.5 bn.

On June 28, 2018, OMV closed the sale of its Upstream companies active in Pakistan and material payments made in 2018 prior to this date have been reported.

On November 30, 2017, OMV acquired a stake of 24.99% in OJSC Severneftegazprom (SNGP). As SNGP is an associated company and therefore accounted for using the equity method in OMV Group Consolidated Financial Statements it does not meet the definition of a reporting entity in the context of the Austrian Commercial Code.
