Time for the office—and watches for fall

Time for the office!

It's the end of home office for some, for others it's the vacation season coming to a close. And many are starting their first job. No matter the circumstances, all have one thing in common: It's time to get ready for the workplace—and having a good watch on the wrist is an essential part.

GLASHÜTTE, AUGUST 2021. Of course, there are many reasons to look forward to returning to the workplace. Seeing colleagues in real life again, for example, or starting a new job. Whether you wear a suit, a uniform, or casual attire: For most jobs it's essential to dress appropriately and to pay attention to your hairstyle, shoes, and accessories. As well as your choice of timepiece. A good watch not only demonstrates style and taste—it also helps you to stay punctual for appointments, both private and professional.

Exactly these kinds of watches have been produced in Glashütte for 175 years; classically understated, with quality mechanical movements. The watchmaking company that produces more watches than any under the prestigious designation of origin—all with in-house designed and built calibers—is called NOMOS Glashütte. In fact, the most famous mechanical wristwatch "Made in Germany" is the NOMOS model Tangente.

NOMOS Glashütte is renowned for watches that sit smartly under the cuff, that are distinctive and yet attractively understated, long lasting, and accurate. Feel free to get in touch for more details and prices—we're always happy to hear from you!

Whether it's a coworking space or a newsroom, a doctor's office, laboratory, or a law practice: NOMOS watch Orion neomatik 39 midnight blue is suitable for all of these settings. The design masterpiece from Glashütte is deeply rooted in the history of the world-famous center of German watchmaking—and also very modern.

A design masterpiece from Glashütte, crafted in the world-famous center of German watchmaking. And yet: A watch perfect for the modern world of work. Regardless of whether it's a coworking space or a newsroom, a doctor's office, laboratory, or a law practice: The NOMOS model Orion is a great choice for a wide range of workplaces. It is available with manual winding or with a neomatik caliber (neomatik stands for new automatic). Here: Orion neomatik 39 midnight blue. Image: Haw-lin Services

Meet your new personal assistant: One of the most renowned mechanical wristwatches, Tangente from NOMOS Glashütte. It features a distinctive angular case, smooth sapphire crystal glass, and unmistakable typography. This version is Tangente neomatik with a 39-millimeter diameter—ultra slender thanks to the proprietary automatic caliber DUW 3001.

Straight from work to the gym? Club is ready to go: Whether swimming, diving, climbing, or running—the NOMOS model Club neomatik can keep up and is still stylish enough for any meeting. Aesthetically, this watch is ideal for more casual work outfits, but when it comes to precision and expertise, this Glashütte model never lets standards slip. It honors the 175 years of watchmaking heritage from which it originates.

An elegant way to demonstrate watch knowledge and style: Metro neomatik 39 silvercut. Like all NOMOS timepiece, this model is produced using the skills and tradition gained from over 175 years of Glashütte watchmaking history. The design captures a fascination with mechanics and analog timekeeping. Image: Haw-lin Services

For people with a strict appreciation for aesthetics—and a demanding work life: Lambda, the most opulent timepiece from NOMOS Glashütte. It only requires winding once every 84 hours, because twin mainspring barrels store the energy within. The generously proportioned power reserve indicator shows when the fine caliber must be rewound. Available in white gold and rose gold.

The square is generally considered to be a rather niche shape for a timepiece. This angular classic watch model, however, proves itself to be beautiful and practical on all wrists, and counts as one of the most successful non-round mechanical timepieces ever. Here, the largest NOMOS model in the Tetra collection: Tetra neomatik 39 midnight blue. A watch that works for whoever wears it—gender-neutral, confident, distinctive.
