## NTT DATA Business Solutions has earned the SAP on Microsoft Azure Advanced Specialization

*Bielefeld/Redmond, Wash. (ots) -*

[NTT DATA Business Solutions](#) today announced it has earned the SAP on Microsoft Azure advanced specialization, a validation of a services partner's deep knowledge, extensive experience and proven success at implementing SAP solutions on Azure.

Because beyond 2027, maintenance for SAP Business Suite 7 core applications is only offered as optional extended maintenance until the end of 2030, many enterprises are looking for a partner with advanced skills to migrate and modernize their existing SAP environment in the cloud.

Rodney Clark, Corporate Vice President, Global Partner Solutions, Channel Sales and Channel Chief at Microsoft added, "The SAP on Microsoft Azure advanced specialization highlights the partners who can be viewed as most capable when it comes to migrating enterprise SAP applications over to Azure. NTT DATA Business Solutions clearly demonstrated that they have both the skills and the experience to offer clients a comprehensive and professional SAP to cloud managed service."

Norbert Rotter, NTT DATA Business Solutions AG CEO confirmed: "As a Microsoft partner with the SAP on Azure advanced specialization, NTT DATA Business Solutions can work with Microsoft and SAP seamlessly. Customers enjoy all the benefits of flexible platforms combined with NTT DATA's SAP knowhow and deep sector knowledge."
