Brenntag announces new agreement with Corbion for Animal Nutrition in Belgium, The Netherlands and France

Brenntag, the global market leader in chemicals and ingredients distribution, announces a new and exclusive agreement with Corbion Animal Health for the distribution of ALOAPUR in the Animal Nutrition & Health industry in Belgium, The Netherlands and France. ALOAPUR, containing lactylates as active ingredient, targeting Gram positive bacteria, is an essential part of the Total Concept of Brenntag Animal Nutrition to ensure better performance and healthier animals. This new agreement is an important next step and reinforces the collaboration between both companies, which are already working together in the Life Science segments Food, Pharma and Cosmetics.

Brenntag is producing premixtures for the Animal Nutrition and Pet Food industries. These products include premixtures to preserve ingredients against yeast or moulds, prevent contamination of bacteria, stimulate animals' gut health, prevent oxidation of fats and oils, or create solid solutions of liquid ingredients. All this leads to a reduction of feed waste. The products thus contribute to the company's sustainability ambition to increase resource efficiency in the whole value chain.

"We look forward to extending our good working relationship and experience into an exclusive cooperation as of January 2022 in Corbion's unique product in the animal nutrition markets in Belgium, The Netherlands and France. ALOAPUR is a perfect fit to the Brenntag Animal Nutrition portfolio as it helps the animals in controlling gram positive bacteria like Streptococcus and Clostridium and hence maintaining a better (gut) health. Our customers will benefit greatly from our combined technical expertise and our ability to assist with innovation and product development," states Bart Gaeremynck, Business Manager Animal Nutrition for Brenntag in Benelux and France.

"This new partnership will enable Corbion to extend its presence to nearly full market coverage as well as seeing a number of new

customers being serviced efficiently by the dedicated Brenntag team. Joining forces this way promises to become a successful path for the benefit of both partners as well as their customers,” said Nico Kors, Global Sales Director Corbion Animal Health.

Brenntag Animal Nutrition is part of Brenntag Specialties, a global division focusing on focus industries such as Animal Nutrition that excels at linking product quality, formulation expertise and market knowledge as full-line distributor. Brenntag Specialties customers benefit from a high level of application and formulation expertise, as well as regulatory know-how on global and local levels.

About Corbion:

Corbion is the global market leader in lactic acid and its derivatives, and a leading supplier of emulsifiers, functional enzyme blends, minerals, vitamins and algae ingredients. Corbion’s strategy and operations are built around advancing sustainability and applying high ethical standards, whether this relates to the management of global supply chain, responsible procurement of raw materials, or the safety and wellbeing of employees. In 2020, Corbion generated annual sales of € 986.5 million and had a workforce of 2,267 FTE. Corbion is listed on Euronext Amsterdam.

About Brenntag:

Brenntag is the global market leader in chemicals and ingredients distribution. The company holds a central role in connecting customers and suppliers of the chemical industry. Headquartered in Essen, Germany, Brenntag has more than 17,000 employees worldwide and operates a network of more than 670 sites in 77 countries. In 2020, Brenntag generated sales of around 11.8 billion EUR. The two global divisions, Brenntag Essentials and Brenntag Specialties, provide a full-line portfolio of industrial and specialty chemicals and ingredients as well as tailor-made application, marketing and supply chain solutions, technical and formulation support, comprehensive regulatory know-how, and digital solutions for a wide range of industries. In the field of sustainability, Brenntag pursues specific goals and is committed to sustainable solutions in its own sector and the industries served. Brenntag shares have been listed at the Frankfurt Stock Exchange since 2010, initially in the MDAX and since September 2021 in the DAX. In addition, the Brenntag SE shares are listed in the DAX 50 ESG and DAX ESG Target. For more information, visit www.brenntag.com.
