German Supplier From Frankfurt Delivers Critical Raw Materials To The UK Despite Shortages

Frankfurt/Main (ots) -

The industrial demand for raw materials such as strategic metals, platinum metals and rare earths can be supplied by TRADIUM GmbH. Based in Frankfurt, TRADIUM offers a large product selection with very quick delivery times.

One of the most renowned German commodity and metal traders, [TRADIUM GmbH](#), offers a reliable supply despite the ever-increasing procurement crisis in the commodity market. On top of the ongoing Corona pandemic, the Russia-Ukraine conflict is affecting the economy and causing further supply shortages as well as delays in transportation. Many commodity traders have already had to inform their industrial customers about uncertain delivery times and rising logistics costs. Due to longer grown independency from currently uncertain supply chains TRADIUM is able to deliver a wide range of critical raw materials of industrial quality and quantities on short notice. The company, based in Frankfurt, Germany, has been supplying [technology metals](#), [platinum metals](#) and [rare earths](#) for more than 20 years.

Well-stocked warehouse with strategic metals

Thanks to long-standing business relationships with producers and forward-looking raw material procurement, the company has large stockpiles of rare earth elements, technology metals and platinum group metals which are kept in their [high-security warehouse in Frankfurt](#). With products stocked in various qualities, quantities and delivery forms, customers can select from their inventory using the product specifications available and arrange deliveries promptly.

The following raw materials are in stock:

Technology metals such as gallium, germanium, hafnium, indium, rhenium

Precious metals such as iridium, palladium, platinum, rhodium, ruthenium

Rare earths, e.g. dysprosium, neodymium, praseodymium, terbium, yttrium

"We started to diversify our supply chains several years ago and source raw materials from different countries of origin. In this way, we prevent dependencies and can react flexibly to bottlenecks or outages. This security of supply makes us a highly valued partner for numerous industrial companies that urgently need the raw materials to maintain their own supply chains." - Matthias R  th, Managing Director of TRADIUM.
