Getir announces a global restructuring

Berlin (ots) -

Getir, the ultrafast grocery delivery pioneer, will restructure the global organization to significantly increase operational efficiency.

The Getir network consists of roughly 23,000 people across five countries. This number includes couriers, pickers, and office employees. Regrettably, Getir intends to reduce its team and, with a heavy heart, part ways with approximately 2,500 talented employees across its markets.

Decisions like these are never taken lightly. However, Getir is determined to do right by all employees affected by the process in line with its values and in full compliance with local laws. Getir is very grateful to all colleagues for their hard work, dedication, and significant contributions to the business.

Getir will continue to operate in Turkey, the UK, Germany, the Netherlands, and the US. The company remains fully committed to the future of the industry it pioneered eight years ago and will continue to lead it in the future.
