SÓLIDA Showcases Its Credentials as a Leading Engineering Firm in Photovoltaics and Hybridisation with Batteries and Wind at Intersolar

Munich, Germany (ots) -

SÓLIDA, a leader in **engineering and consultancy** services in the renewable energy sector, is pleased to announce its participation in the upcoming edition of **Intersolar Europe**, which will take place from 19th to 21st June in Munich. For the second consecutive year, SÓLIDA will exhibit at **stand A4/508** in hall A4, where it will showcase its credentials as a leading engineering firm in **photovoltaics and hybridisation** with batteries and wind.

With a solid track record of over 15 years, SÓLIDA has established itself as an independent specialist firm in renewables, with projects on five continents and a presence in countries such as Italy, Portugal, Brazil, Chile, Colombia, and the Dominican Republic, in addition to Spain, where its headquarters are located.

Renowned for its **technological approach** and its ability to integrate innovation, digitalisation, and process automation, SÓLIDA also stands out for its highly qualified team of **over 300 professionals**, primarily engineers, as well as mathematicians, physicists, and architects. This combination of **technical expertise and human talent** has enabled SÓLIDA to become a benchmark in the sector, accumulating over 180,000 MW of experience in renewable energy projects in more than 50 countries.

At Intersolar, SÓLIDA will present its extensive range of services, with a special focus on its positioning as a **Technical Advisor** for sponsors and financial entities, a strategic growth vector for the company. Furthermore, it will share its accumulated knowledge as an **expert engineering firm in photovoltaic projects**, including hybrid solutions with **BESS** storage systems and wind farms. From pre-feasibility studies, resource and production assessments, hydrological studies, detailed engineering, to comprehensive Owner's Engineering and Project Management services during construction, the company offers a global value proposition throughout the project lifecycle.

"We are delighted to return to Intersolar and continue to be at the technological forefront," said Andrés Medina, SÓLIDA's Business Development Director. "Our commitment to excellence, constant investment in R&D+i, and our accumulated know-how from numerous projects around the world enable us to present ourselves as the reference engineering firm in the sector."
