Solar Leasing with Golfstrom 2.0: The Financing Backbone to Support Solar Installation Companies in Germany

München (ots) -

Golfstrom, the leading solar-as-a-service platform, proudly announces the launch of Golfstrom 2.0. This new version introduces exciting new features designed to help solar installation companies enhance their offerings through innovative lease-to-own options.

Golfstrom 2.0 is the result of our ongoing efforts to revolutionize the solar industry in Germany and drive the energy transition forward. With our upgraded platform, we now offer a range of new and improved features that significantly streamline the workflow of solar installers while boosting their sales capabilities:

- **Automatic Proposal Extraction:** Our platform automatically extracts proposals, saving valuable time and resources.
- **Unlimited Lease-to-Own Creation:** Custom lease-to-own offers can be created with just a few clicks, providing customers with flexible and attractive financing options.
- **Comprehensive User Support:** Our support team is always ready to assist users with any questions or challenges they may encounter.
- **Additional Sales Support Materials:** Golfstrom 2.0 generates automatically tailored sales support materials to meet the specific needs of customers.
- **Financing for Over 200 Components:** Our platform enables the financing of over 200 different components, significantly increasing the diversity and flexibility of offered solutions.

With the demand for residential solar systems currently 40% lower compared to a year ago, customers are actively seeking out financing solutions. Golfstrom addresses this need head-on, empowering solar installation companies to offer competitive and flexible financing options. "This is an absolute no-brainer", said an early adopter of Golfstrom 2.0, highlighting the platform's intuitive and valuable features.

"With Golfstrom, we are setting a new standard in the solar industry. Our innovative platform supports solar installation companies in enhancing their efficiency, expanding their customer base, and ultimately maximizing the use of solar energy," explains Caspar Bayer, CEO of Golfstrom. "We are confident that our development will make a significant contribution to the energy transition."

In celebration of the launch, the first ten users of Golfstrom 2.0 will receive complimentary access to all features and integration into their existing solar planning tools. Seize this exclusive chance to transform your solar installation business.
