Autel Energy's MaxiCharger DC HiPower Finalist in The smarter E AWARD 2024; Showcasing the Newest MaxiCharger Megawatt Charging System at Power2Drive Europe 2024

Munich (ots) -

Autel Energy, a leading provider of electric vehicle (EV) charging solutions and services, is set to make a significant impact at Power2Drive in Munich, from June 19th to 21st. At booth C6-330, Autel will showcase its latest innovations, including the MaxiCharger Megawatt Charging System and the MaxiCharger HiPower. Additionally, Autel Energy is pleased to announce that its MaxiCharger DC HiPower has been chosen as one of the finalists in the prestigious "E-Mobility" category of The smarter E AWARD 2024. This recognition underscores the groundbreaking advancements and contributions of Autel Energy's innovative charging solutions to the electric mobility sector.

The MaxiCharger Megawatt Charging System, delivering a peak power output of 1500A and an extraordinary charging power of 1.2 MW, is engineered to meet the escalating demand for high-capacity charging infrastructure. Designed with heavy-duty EVs in mind, this cutting-edge solution caters to diverse charging scenarios, from public overnight charging to depot operations.

Additionally, the MaxiCharger DC HiPower, launched last year and already making waves across various European countries including the Nordics and the Netherlands, offers unparalleled speed, providing an astounding 400km of range in just 10 minutes. This remarkable feat not only accelerates EV adoption but also significantly enhances user convenience and flexibility. Moreover, the MaxiCharger DC HiPower is capable of simultaneous charging of up to 8 vehicles, a feature unique to this product.

"We're delighted to present our latest innovations, including the MaxiCharger Megawatt Charging System and the MaxiCharger DC HiPower, at Power2Drive Europe. These solutions underscore Autel's commitment to advancing electric mobility and sustainability," said Ting Cai, CEO of Autel Energy Europe. "Moreover, we're honored that our MaxiCharger DC HiPower is a finalist in The smarter E AWARD 2024, affirming our dedication to innovation in the field. We're grateful to the expert panel for recognizing our contribution."

Experience the future of EV charging firsthand by visiting Autel Energy at booth C6-330 during Power2Drive Europe 2024. Discover how the MaxiCharger Megawatt Charging System and MaxiCharger DC HiPower, along with other Autel Energy products, are revolutionizing the EV charging landscape.
