Infosys Strengthens Strategic Collaboration with Google Cloud to Boost Enterprise AI Innovation, Establishes Center of Excellence

Bengaluru, India (ots/PRNewswire) -

Leveraging Infosys Topaz and Google Cloud technology, the center of excellence will foster co-innovation to deliver transformative AI-powered solutions

[Infosys](#) (NSE: INFY), (BSE: INFY), (NYSE: INFY), a global leader in next-generation digital services and consulting, today announced the launch of a Google Cloud center of excellence, powered by [Infosys Topaz](#), to foster enterprise AI innovation. The center will serve as a catalyst for co-creation and help businesses harness the power of generative AI to achieve transformative growth.

Infosys and Google Cloud share a strong legacy of delivering innovative data analytics and AI solutions, driving customer success. Infosys has already enabled more than 60,000 employees on Google Cloud. Combining the expertise of Infosys Topaz AI capabilities and [Infosys Cobalt](#) cloud capabilities, with Google Cloud's gen AI technology, the center of excellence will help address complex challenges across both business and technology domains using innovative enterprise AI solutions. The collaboration will enable a conducive environment for enterprises to co-create customized solutions in areas such as contact center AI, software development lifecycle, agentic AI, speech-to-speech, text-to-image, and application modernization, aimed at optimizing efficiency and business performance.

Balakrishna D. R. (Bali), Executive Vice President, Global Services Head, AI and Industry Verticals, Infosys, said, "The strengthened collaboration with Google Cloud represents a strategic alignment in our mission to lead enterprise AI innovation. Combining the expertise of Infosys Topaz AI offerings with Google Cloud's leading technologies, we are empowering enterprises to harness the real power of generative AI through collaboration and co-innovation. The center of excellence exemplifies our shared vision with Google in advancing digital frontiers and delivering exceptional, data-driven solutions to clients worldwide."

Victor Morales, Vice President of GSI and Consulting Partnerships, Google Cloud, said, "Infosys and Google Cloud are committed to providing customers with the industry expertise and technology needed to accelerate digital transformation. The center of excellence is a testament to our strong collaboration and dedication to helping businesses innovate with breakthrough solutions powered by generative AI."

As a part of the center of excellence, Infosys also launched a dedicated AI Experience Zone at its Bengaluru campus. The zone is designed to enable enterprises to experience transformative AI-powered solutions developed by Infosys Topaz in collaboration with Google Cloud.

About Infosys

Infosys is a global leader in next-generation digital services and consulting. Over 300,000 of our people work to amplify human potential and create the next opportunity for people, businesses and communities.
