## Eco Green Energy Launches Integrated PV + BESS Solutions at Intersolar Europe 2025, Reveals Plans for European Manufacturing

Munich (ots) -

Eco Green Energy, a global clean energy solutions provider, will officially unveil its next-generation **integrated solar and battery storage solutions for European markets**, at **Intersolar Europe 2025**. As part of its strategic roadmap, the company will also share plans to expand its manufacturing footprint to **Europe**, with an initial focus on France.

With over 18 years of experience, 3GW+ of installed capacity, and presence in 75+ countries, Eco Green Energy is reinforcing its role as a full-scope provider for EPCs, developers, and industrial clients worldwide.

The announcement will take place during a press conference on **May 9 at 13:00**, at the official Press Conference Room, Messe München.

### Press Conference Highlights:

- **Launch of GAIA Core 211kWh BESS** - an all-in-one energy storage system with integrated PCS, EMS, and fire protection, designed for C&I use
- **Debut of new product innovations:**
  - *Neptune Floating PV System* for water-based solar deployment
  - *Atlas Flex* flexible PV modules for mobile, marine, and off-grid uses
  - *Atlas Agri Series* for agrivoltaic projects
- **Introduction of utility-scale modules:** 500W Full Black TOPCon-R and 725W high-output panel
- **Strategic outlook on EU manufacturing** - initial plans to localize production in France
- **Project case studies from LATAM, SEA, and the marine sector**, supporting ESG and energy independence goals.

### Press Conference Details

**Date:** May 9, 2025

**Time:** 13:00 - 13:40 CET

**Location:** Press Conference Room, Messe München, Intersolar Europe

**Booth: A1.159**

Journalists and media representatives are invited to attend the press conference and meet key company executives. Press kits, product documentation, and interview opportunities will be available on site.
