## Axolt Launches Brain Supplement to Combat Post-Pandemic Burnout Crisis

New York (ots) -

47-Ingredient Formula Targets Workplace Stress and Mental Fatigue in High-Performance Workers

[Axolt](#) announced the launch of its revolutionary brain health supplement designed specifically for high-performing professionals experiencing mental fatigue, focus issues, and cognitive decline.

Research reveals that psychological distress now affects 50% of working professionals globally<sup>1</sup>, with studies demonstrating measurable cognitive impairment during high-stress periods<sup>2</sup>. For ambitious professionals, these statistics reflect a fundamental threat to sustained mental performance.

"Our modern brain is chronically overloaded and undernourished," said Martin Valovsky, Axolt founder. "We created Axolt because most cognitive supplements offer temporary stimulation when high performers need comprehensive brain nutrition that supports stress response and peak cognitive function."

### A Different Approach

Unlike conventional nootropics that rely on caffeine and synthetic stimulants, Axolt delivers a blend of [47 science-backed ingredients](#) targeting cognitive resilience and sustained mental performance. The formula combines stress-supporting adaptogens, neuroprotective polyphenols, and brain-supporting nutrients to support focus, memory, and mental energy without crashes.

"Mental clarity and focus aren't optional, they're the difference between winning and losing," said Andrew Bustamante, former CIA intelligence officer and Axolt user. "That's why I drink Axolt daily."

## Availability

Available as a berry-flavored daily supplement for professionals facing high cognitive demands on [the Axolt](#) website.
