**euro adhoc: Andritz AG / other / Andritz to supply complete Fiberline, Pulp Drying, and Chemical Recovery Systems for Horizonte Project in Brazil**

Disclosure announcement transmitted by euro adhoc. The issuer is responsible for the content of this announcement.

08.05.2007

Graz, 8 May 2007. International Technology Group Andritz, Austria received the order for the supply of a complete Fiberline, Pulp Drying/Baling Plant, and White Liquor Plant for the world's largest pulp mill to be built in Brazil. The design capacity of this greenfield bleached eucalyptus market pulp mill is 1,250,000 t/y. Start-up is scheduled for 2009. The order value is above 200 million Euros.

The order was placed by Poyry Empreendimentos Industriais S.A., the contractor chosen by Chamflora, subsidiary of International Paper, to build the mill at the Três Lagoas site in Brazil's Mato Grosso do Sul state. International Paper recently transferred this project to Votorantim Celulose e Papel (VCP) as part of an asset exchange between the two companies.

The Fiberline represents state-of-the-art process technology providing the best yield, washing efficiency, and minimal chemical consumption. The pulp dryer (working width 9.334 m) is based on Twin Wire former technology that has been proven in several high-capacity pulp mill projects around the world.

Andritz will provide the technology, equipment, basic and detailed engineering, electro-mechanical erection, erection supervision, start-up, and training.

- End -

About Andritz Listed Andritz Group is a global market leader for advanced production systems for pulp and paper, steel and other specialized industries. Andritz has a staff of approximately 10,400 employees worldwide. It develops and makes its high-tech systems at 35 production sites in Austria, Germany, Finland, Denmark, France, Netherlands, USA, Canada and China.
